

50 lb. bag.

Here's how DAIRY-WHITE COARSE BARNLIME improves dairy barns. It's safe and effective in barns, poultry and farrowing houses wherever footing is a problem. REDUCES ODORS DAIRY-WHITE improves working conditions in livestock areas by reducing odors. Not only does it absorb moisture, it also chemically neutralizes acid.

ENRICHES MANURE Our BARNLIME enriches the value of livestock manure. When manure is applied to fields, the high calcium carbonate content of DAIRY-WHITE will help reduce soil acidity.

NON-CAUSTIC DAIRY-WHITE is harmless to livestock. It's safe for use in any area utilized by animals and humans.
